Framework for this Evaluation

The Beef Improvement Federation (BIF) is formed by members including progressive cattle producers; provincial, state and national beef cattle improvement associations; breed associations; and AI organizations. The BIF standardizes programs and methods, and creates greater awareness, acceptance and usage of beef cattle performance concepts. The MCA/MSU Bull Evaluation Program follows the most current Guidelines for Uniform Beef Improvement Programs published by the BIF, setting the industry standard for evaluated bulls.

EVALUATION DIET

Following BIF guidelines, the official evaluation period is conducted for 112 days and the nutritional program is carefully designed to provide levels of protein and energy to allow for expression of genetic differences in growth among bulls. The evaluation period diet was balanced to contain 46% corn silage, 30% corn, 13% hay, 8% soybean meal, and 3% supplement on a dry matter (DM) basis. Average nutrient content on a DM-basis was 11.4% crude protein and 0.56 Mcal NE_g/lb. Also, in accordance with BIF guidelines, bulls are given an increased percentage of dietary forage for 4 weeks post-evaluation, along with daily exercise, to further prepare them for the breeding season and optimize reproductive performance.

65 OF 108 BULLS PASSED RIGID SALE QUALIFICATIONS

- All bulls tested negative for BVD-PI and bTB.
- All bulls are non-carriers of lethal genetic defects, as identified by their breed association pedigree or confirmed by genetic testing, for which there is a DNA test available. These defects include: Arthrogyrosis Multiplex (AM), Neuropathic Hydrocephalus (NH), Contractural Arachnodactyly (CA), Osteopetrosis (OS), Tibial Hemimelia (TH), and Pulmonary Hypoplasia with Anasarca (PHA).
- All bulls born before April, 2011 were measured using ultrasound for rump fat, rib fat, ribeye area, and intramuscular fat.
- All sale bulls have passed disposition and structural soundness qualifications.
- All sale bulls achieved a minimum average daily gain of 2.8 lb during the 112-day evaluation.
- All sale bulls passed breeding soundness requirements (see BREEDING SOUNDNESS EXAMINATION section).

- (21) 365-day adjusted pelvic area (width x height) measured at breeding soundness exam, cm²*
- (22) Adjusted 365-day scrotal circumference, cm*

*Values calculated and adjusted according to Beef Improvement Federation guidelines.

Evaluation Index and Sale Order

The evaluation index is the average of percentile rank for six EPD values (birth weight, weaning weight, yearling weight, maternal milk, marbling, and ribeye area), evaluation ADG and WDA. Lower values indicate a more desirable average percentile ranking. Sale order is determined by evaluation index, with the lowest indexing bull selling first. A listing of bulls in test index (sale order) is located in the back of this catalog.

Evaluation Index Formula

$$(BW\%+WW\%+YW\%+MM\%+MARB\%+REA\%+ADG\%+WDA\%)/8$$

Across Breed EPD Adjustments

EPD values can not be directly compared among breeds. The adjustment values listed below can be added to any two respective breed EPDs to convert them to an estimated across-breed EPD.

GENERAL INFORMATION - TERMS AND CONDITIONS

ANNOUNCEMENTS

Any announcements made from the auction stand during the sale, shall take precedence over any material printed in the sale catalog.

TERMS

Cash or check (U.S. Funds)

1. Out-of-state and off-site bidders must pre-register by March 9, 2012. Registration form available at: beef.msu.edu/bulleval. See special instructions for phone bidding in this catalog.
2. Each animal will be sold to the highest bidder and the Auctioneer will settle any dispute as to bids.
3. Bulls must be paid for before being released.
4. Each animal will be at the purchaser's risk immediately after being sold.

MAIL BIDS

Mail bids may be sent to the sale manager, auctioneer, or ringmen, and will be handled with strictest confidence.

INSURANCE

Representatives of livestock insurance companies will be present at the sale.

LIABILITY

It is clearly understood that any person or persons attending this sale do so at their own risk. The Michigan Cattlemen's Association (MCA), Michigan State University (MSU), and the Bull Evaluation Station or their agents assume no liability, legal or otherwise, for the safety of the premises, the behavior of animals, or accidents that may occur. The MCA, MSU, and Bull Evaluation Station personnel act only in the capacity of agents in this sale. Any claims or adjustments must be made strictly between buyer and seller.

HEALTH AND MOVEMENT

1. Bulls are sold under health regulations of Michigan.
2. All bulls have been tested negative for tuberculosis (TB).
3. Bulls that are moved across a TB zonal boundary (into Modified Accredited Zone (MAZ) or Modified Accredited Advanced Zone (MAAZ)) do not require a movement certificate, however the State of Michigan recommends a movement certificate to add the bull to your herd's inventory. Dr. James Averill will be available sale day to issue hand written movement certificates. Prior to movement of bulls outside of Michigan, contact the destination State Veterinarian for requirements. (usaha.org/Portals/6/StateAnimalHealthOfficials.pdf)

BREEDING SOUNDNESS EXAMINATION

All bulls born prior to Feb 1, 2011 have passed a complete breeding soundness exam (BSE) as defined by the Society for Theriogenology. Bulls born between Feb 1, 2011 and April 30, 2011 have been subject to meeting all requirements of a BSE, except, the normal sperm morphology requirement was lowered to 50% (as compared to 70% for bulls born prior to Feb 1, 2011). It is recommended that bulls born between Feb 1, 2011 and April 30, 2011 have a complete BSE before being placed with females to be bred.

BREEDING GUARANTEE

All animals sold are guaranteed to be breeders, if properly cared for and not allowed to run with a herd until they are at least 15 months of age. Any bull that settles at least one third of the healthy cows he covers will be considered a breeder. Any animal not complying with this breeding guarantee may be returned to the seller at the buyer's expense, and if in good condition and complying with the health requirements of the seller's state, shall entitle the buyer to a satisfactory adjustment. In the case of an animal claimed to be a non-breeder, the seller shall be entitled to 6 months following the return of the animal in which to demonstrate that the animal is in fact a sound breeder. Michigan State University, Michigan Cattlemen's Association, Plank Farm, United Producers Inc., or the Bull Evaluation Committee does not assume any liability for breeding guarantee. Any items not specifically mentioned will default to standard guarantee of the respective breed association.

CLAIMS FOR REFUND OR OTHER ADJUSTMENT

All claims for adjustment or refund must be made in writing within 6 months of the sale or 3 months after the purchased animal reaches the age of 18 months, whichever occurs later. The return of the full purchase price will in any case be deemed full satisfaction and settlement.

REGISTRATION CERTIFICATES

Breed registration certificates will be transferred to the buyer by the seller, and at the seller's expense. Please give the settling clerk the exact and complete name and address to which you wish to have your bull transferred.

POST SALE CARE OF BULLS

Each bull becomes the property of the successful buyer when he passes through the sale ring. **Arrangements may be made to board bulls post-sale at Plank Farm, for a fee of \$2.75/day. All bulls not being boarded must be removed from the sale facility by 12:00 noon, Sunday, March 18, 2012.**
